

Hyperion Group Structure

Enacting a Global Transformation Strategy

The Hyperion One Platform Initiative

Our Journey

Built on trust through a mix of targeted innovation & long term strategic implementations

IT for business, by the business

- Concord for Howden UK
- Homeowners for Bowood
- Cyber for RKH
- And many more..

- Short Term Scalability and Growth
-
- Senior Leadership & Business Trust
-
- Discovery of Global platform landscape
-
- Regional stakeholder buy-in
-
- Business Case to Board & Shareholders
-
- Global One Platform Initiative established

The Era of the big Transformation Project is over...

Shifting away from building a single solution for everyone, that works for no one.

- Limited central appetite for 3rd party expenditure on consultancy and requirements gathering
- Global Programme – Local Projects
- Regional teams and delivery
- Regional timelines
- Controlled by local Senior Leadership
- Divisional Requirements
- Tailor made solutions
- Central Data, Financial, & Architectural Governance

Thank you!
