Cyber Security Governance:
Updates from the front line, March 2022

Darren Wray - Webinar Chairman
CEO, Fifth STEP IT Management Consultancy

Darren Wray is a regular speaker on the global stage about digital transformation, data governance and cybersecurity management and successful author. In a career spanning 25 years, Darren has worked with and advised many UK/global insurance businesses, technology giants and UK law enforcement/intelligence agencies. Darren's recent publications include 'The CIO Navigator - Business Advantage Through Consistent IT and Innovation'.

James Pope

**Divisional Director, Cyber & Technology Solutions,
Howden Specialty at Lloyd's**

'How commercial clients today are using insurance to insulate themselves from the cost of cyber events. What do the policies cover and what do they not cover?'

James has 16 years' experience in the London Insurance market and has been a dedicated Cyber and Tech E&O insurance practitioner for the past seven years. He has extensive experience finding solutions for hard to place risks in challenging industry sectors or territories. He has also been a designated underwriter on Howden's in house cyber binding authority for three years.

**Alex Jinivzian****VP of Strategy and Corporate Development at eSentire**

'Ransomware Enters the Mainstream The Rise of Organised Cybercrime'

As eSentire's Vice President of Strategy and Corporate Development, Alex is responsible for corporate strategy, corporate development, M&A, strategic partner business development as well as driving thought leadership internationally. A disciplined senior business strategist and strategic marketer, Alex brings 25 years of experience in the ICT service sectors in a range of functions including corporate, product and channel strategy, M&A identification and execution, and commercial partnership development.

Prior to joining eSentire in 2018, Alex was Director of Worldwide Partner Strategy at Hewlett Packard Enterprise (HPE), and Director of Corporate Strategy at Verizon Communications. Alex holds a BA in Russian Language and Literature from the University of London, an MA in International Relations (Distinction) from the University of Reading, and a Certificate in Market Driving Strategies from the London Business School.

John Smith
EMEA CTO at Veracode

'Addressing the Risks posed by Software in the Insurance Industry'

John Smith is the Chief Technology Officer in EMEA. John has worked in Information Security for more than 20 years, and in Application Security specifically since 2004. He helped drive the evolution of AppSec, from ad-hoc testing using a range of technologies such as Dynamic Analysis through to the comprehensive and programmatic approaches seen in mature organisations today, where integrated and automated testing is supported by strong policy and governance. At Veracode, John leads the solution architecture team in EMEA and is responsible for helping customers and prospects understand the ways we can help them be more effective and efficient in identifying and reducing their software security risks. Prior to joining Veracode in 2012, John was a Senior Solution Architect at IBM.
