# The Cyber Knowledge Gap

## **Lack of technical terminology**

Unlike traditional products, the cyber policy is negotiated with technical leaders (CISO, CIO).

People don't want to talk about things they don't understand.

## **Shortage of skilled workforce**

Due to the traditional nature of the industry, insurance organizations are struggling with finding technically-minded talents.

## **The issue of Silent Cyber**

Cyber-related losses stemming from insurance policies that were not specifically designed to cover cyber risk. The entire industry needs to step-up their game.

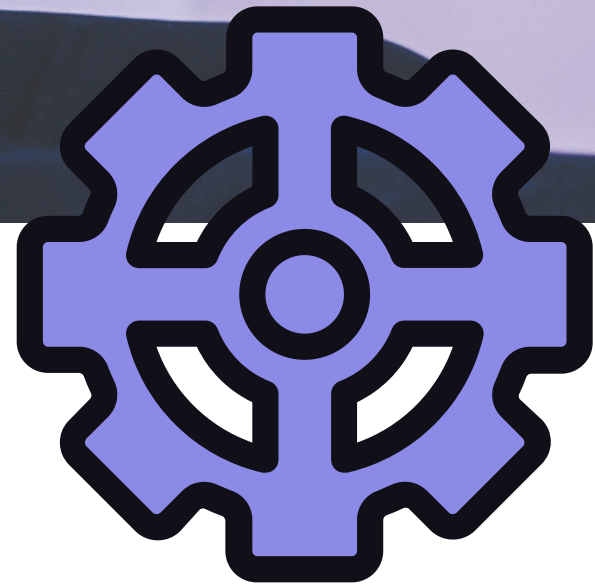

# Enter The Cyber Insurance Academy

**Our mission is to empower the next generation of insurance professionals by providing them with the skillset needed in a new emerging era.**

A 24/7 online academy that was designed for insurance professionals who are looking to build or expand their cyber knowledge.
